

# RURAL AID BnB

## Accommodation & Travel Assistance

Established in 2017, this program focuses on providing accommodation and travel costs assistance to rural families in time of an emergency.

Due to a reduction in rural health services in many parts of Australia, families are having to travel further to receive medical assistance. The cost burden has been shifted from health departments to patients and many in rural and remote Australia put off trips until it becomes too late.

When it does, accessing accommodation at the last minute close to a loved one or accessing transport assistance may be the last thing one thinks of. Now Rural Aid has a solution.

Through our extensive supporter base, Rural Aid is developing a list of home owners and drivers prepared to help out rural families.

Home owners can register their property and volunteers can register their cars to ferry loved ones in need of assistance. All home owners and drivers' information is private and will not be publicly displayed. All assistance is worked out in a confidential manner.

Covering the whole of Australia, Rural Aid intends to work with other emergency service providers like the RFDS, Heart of Australia, Care Flight, LifeFlight, Angel flight and more.

If you are a loved one in need of assistance with accommodation or travel support in times of emergency, contact Rural Aid on 0412 448 333.
